

Eastbury Road Post Office® is changing

We recently asked your views on some key areas about our plans to change your Post Office to one of our new-look **local** branches. We received **2** submissions about the possible changes and we've now finalised our plans for the change to your branch. While it's not possible to respond to each individual issue raised, a summary of the main comments we received is provided below.

We asked why you use this Post Office and what you like about it.

You said.....that you use this branch as it is conveniently located and the staff are friendly and helpful. You also said that you use this Post Office for a wide variety of services.

You'll be glad to know that most of what you like about your branch won't change. Your new Operator is keen to provide the same high standard of service as is currently received. The new style local format is a simpler operating model than a traditional style Post Office. It is designed to handle products and services that are automated, meaning that customers can be served quickly and efficiently and transactions processed more quickly.

We asked for your comments about the changes to the branch.

You said.....that you would prefer it if the Post Office and retail counters remained separate. Some of you said you would like there to be sufficient space for queuing within the store.

We fully recognise people can be wary of change and we are pleased that you took the time to let us know what's concerning you. I would also like to reassure you that when we are talking with the operator we work with them to make sure there is an appropriate level of privacy at the Post Office till point and discuss issues like queue layout and asking customers to stand back from the counter whilst they are waiting for service. There will be two separate, clearly signposted, queues for Post Office and retail customers in order to ensure that queue times are kept to a minimum.

Additionally, your new Post Office counter will be located at the end of the retail till, on the right hand side of the shop as you enter. There will be sufficient space for Post Office customers to move around within the store, including wheelchair users, so they can reach the Post Office area without hindrance.

We asked for your comments about any changes to the opening hours.

You said.....that the longer opening hours are unnecessary.

We already have over 2000 branches offering Post Office services in this new way. Feedback from customer satisfaction surveys supports that customers particularly like the longer opening hours the local style branch offers. This means that customers can choose to visit their local branch at times that suit their lifestyle better, whether this be first thing in the morning, during the day, or later in the evening, which also helps to spread customer visits throughout the day.

We asked if you have any comments about the change to the range of Post Office products and services at the branch if the change goes ahead.

You did not comment on the change to the range of Post Office products and services at the branch.

The new-style local format is a simpler operating model than a traditional style Post Office. It is designed to handle products and services that are automated meaning that customers can be served quickly and efficiently and transactions processed more quickly. You may need to go to an alternative Post Office for a small number of transactions which are more complex or manual, paper based transactions, like Parcelforce Worldwide International Parcels. But the majority of services will still be available, including the acceptance of Royal Mail international letters, parcels up to 2kg and printed papers up to 5kg.

The small number of services that will no longer be available at Eastbury Road Post Office will continue to be offered at The Pond Post Office.

We asked for your comments about the potential closure period during the refurbishment or access to other branches in the area.

You said.....that you will be able to access alternative branches during the refurbishment. However, some of you said that the potential closure period would be inconvenient.

We recognise that even a short term closure will be inconvenient, for which we apologise. However we've been working with the Operator to keep the closure to a minimum and we will ensure that the nearest alternative branches are displayed and publicised. We've also given you 2 weeks' notice of the closure period, so you have time to make necessary alternative arrangements.

Please look at the poster displayed in branch for more details about the change.

We'd like to thank all those who took the opportunity to let us have their views about the changes.
