

Lazonby Post Office® is changing

We recently asked your views on some key areas about our plans to change your Post Office to one of our new-look **local** branches. We received **11** submissions about the possible changes. While it's not possible to respond to each individual issue raised, a summary of the main comments we received is provided below.

We've now finalised our plans and your new-look Post Office is scheduled to open at the current location on Monday 4 June 2018 at 13:00. To make this change happen, the branch will need to close for refurbishment on Saturday 2 June 2018 at 12:30.

We asked why you use this Post Office and what you like about it.

You said.....that you use this Post Office for a wide variety of services. You also said that you use this branch as it is conveniently located, and the staff are friendly and helpful.

You'll be glad to know that most of what you like about your branch won't change. Your existing operator is keen to provide the same high standard of service as is currently received. The new style local format is a simpler operating model than a traditional style Post Office. It is designed to handle products and services that are automated, meaning that customers can be served quickly and efficiently and transactions processed more quickly.

We asked for your comments about the changes to the branch.

You said..... you do not like the idea of having to queue in the same area as retail customers, which may cause longer queues and congestion. You are also concerned about the lack of privacy and security for both customers and staff, if the Post Office counter is located alongside the retail till. Also there would be a lack of space within the store for all customers to move around freely.

We fully recognise people can be wary of change and we are pleased that you took the time to let us know what's concerning you. Although the local style format is a different way of providing a service, security or privacy is not compromised. As with any other branch we have robust security procedures in place and anyone handling Post Office transactions including new staff will be fully trained on all operational and service issues including customer privacy. I would also like to reassure you that when we are talking with the operator we work with them to make sure there is an appropriate level of privacy at the Post Office till point and discuss issues like queue layout and asking customers to stand back from the counter whilst they are waiting for service.

During identified busy periods and to help manage waiting times, the Operator is expected to manage staffing levels at retail and Post Office service points appropriately.

The new style Post Office will operate with a counter, located at the retail till on the left hand side as you enter the store, enabling customers to carry out a wide range of Post Office products and services alongside retail transactions.

There will be sufficient space for Post Office customers to move around within the store, including wheelchair users, so they can reach the Post Office area without hindrance.

We asked for your comments about any changes to the opening hours.

You said.....that you welcome the longer opening hours. However, some of you said the current opening hours are fine and extending them is unnecessary.

When the new branch opens customers will benefit from longer opening hours:

Monday – Saturday 07:00 – 22:00 & Sunday 10 :00 – 16 :00

We already have over 3000 branches offering Post Office services in this new way. Feedback from customer satisfaction surveys supports that customers particularly like the longer opening hours the local style branch offers. This means that customers can choose to visit their local branch at times that suit their lifestyle better, whether this be first thing in the morning, during the day, or later in the evening, which also helps to spread customer visits throughout the day.

We asked if you have any comments about the change to the range of Post Office products and services at the branch if the change goes ahead.

You said..... that the changes to the products and services are minimal, and will not affect you. Some of you said you would like Car Tax to be available at this branch.

I am pleased to let you know that the range of products will remain the same at the new branch and customers will still be able to transact manual banking and Royal Mail and Parcelforce Worldwide International Parcel Services. Additionally cheques will continue to be accepted as a method of payment. Car Tax will be available at Burrowgate Post Office branch.

The small number of services that are not available at Lazonby Post Office can be accessed at Burrowgate Post Office.

We asked for your comments about the potential closure period during the refurbishment or access to other branches in the area.

You said..... That the potential closure period is acceptable providing it is kept to a minimum. However, some of you are concerned that the refurbishment period will be inconvenient.

We recognise that even a short term closure will be inconvenient, for which we apologise. However we've been working with the operator to keep the closure to a minimum and we will ensure that the nearest alternative branches are displayed and publicised. We've also given you 2 weeks' notice of the closure period, so you have time to make necessary alternative arrangements.

Please look at the poster displayed in branch for more details about the change.

We'd like to thank all those who took the opportunity to let us have their views about the changes.
