

## **Niton Post Office® is changing**

We recently asked your views on some key areas about our plans to change your Post Office to one of our new-look **local** branches. We received 7 submissions about the possible changes. While it's not possible to respond to each individual issue raised, a summary of the main comments we received is provided below.

We've now finalised our plans and your new-look Post Office is scheduled to open at the current location on Thursday 14 February 2019 at 13:00. To make this change happen, the branch will need to close for refurbishment on Wednesday 30 January 2019 at 13:00

### **We asked why you use this Post Office and what you like about it.**

**You said.....that you use this Post office for a variety of services, the service is efficient and friendly, it's convenient and have an excellent degree of privacy and the queues are short and swift moving**

You'll be glad to know that most of what you like about your branch won't change. Your new Operator is keen to provide the same high standard of service as is currently received. The new style local format is a simpler operating model than a traditional style Post Office. It is designed to handle products and services that are automated, meaning that customers can be served quickly and efficiently and transactions processed more quickly.

### **We asked for your comments about the changes to the branch.**

**You said.....No change is needed and combining the Post Office counter with the retail counter will cause total chaos, longer queues and would seem a retrograde step**

We fully recognise people can be wary of change and we are pleased that you took the time to let us know what's concerning you. Although the local style format is a different way of providing a service, security or privacy is not compromised. As with any other branch we have robust security procedures in place and anyone handling Post Office transactions including new staff will be fully trained on all operational and service issues including customer privacy. I would also like to reassure you that when we are talking with the operator we work with them to make sure there is an appropriate level of privacy at the Post Office till point and discuss issues like queue layout and asking customers to stand back from the counter whilst they are waiting for service.

Additionally, your new Post Office counter will be located at the end of the retail till, on the right hand side of the shop as you enter.

**We asked for your comments about any changes to the opening hours.**

**You said.....You welcome the longer opening hours**

When the new branch opens customers will benefit from longer opening hours:

Monday – Saturday 09:00 – 17:30

We already have over 2000 branches offering Post Office services in this new way. Feedback from customer satisfaction surveys supports that customers particularly like the longer opening hours the local style branch offers. This means that customers can choose to visit their local branch at times that suit their lifestyle better, whether this be first thing in the morning, during the day, or later in the evening, which also helps to spread customer visits throughout the day.

**We asked if you have any comments about the change to the range of Post Office products and services at the branch if the change goes ahead.**

**You said.....that the changes to the products and services is minimal, however some of you would like to continue to pay by cheque as it would be inconvenient to have to travel to an alternative branch to access this service**

The new-style local format is a simpler operating model than a traditional style Post Office. It is designed to handle products and services that are automated meaning that customers can be served quickly and efficiently and transactions processed more quickly. You may need to go to an alternative Post Office for a small number of transactions which are more complex or manual, paper based transactions, like Parcelforce Worldwide International Parcels. But the majority of services will still be available, including the acceptance of Royal Mail international letters, parcels up to 2kg and printed papers up to 5kg.

During the closure period you can continue to access Post Office services at Ventnor Post Office.

**We asked for your comments about the potential closure period during the refurbishment or access to other branches in the area.**

**You said.....that the potential closure will have a detrimental effect on the village, and very inconvenient as the bus service is infrequent and no nearby branches within easy access of non-car owners**

We recognise that even a short term closure will be inconvenient, for which we apologise. However we've been working with the postmaster to keep the closure to a minimum and we will ensure that the nearest alternative branches are displayed and publicised. We've also given you 2 weeks' notice of the closure period, so you have time to make necessary alternative arrangements.

Please look at the poster displayed in branch for more details about the change.

We'd like to thank all those who took the opportunity to let us have their views about the changes.
